

Hi All,

The Drei Staaten Gruppe had a wonderful day at the Show on Sunday. Our new location was really great and we had lots of foot traffic, and literally gave out everything that we had brought.

The pop up canopy was the perfect size for three tables and the kids could approach from all sides to view the books, posters and magazines that were available.

We handed out over 200 Matchbox Cars which were a very big hit with the kids!

We were rewarded with big smiles all around.

Hopefully we can be at the same location next year.

The Porsche Car Corral was filled to capacity, and we welcomed many OVR and DSG families to our booth.

We will need more POV bags for next year as we used most of them. If needed I can contact POV, and just let me know.

My two granddaughters were both junior judges this year, and had so much fun learning about the many cars on display.

We worked on my car until about midnight on Saturday and finally decided that it would not make it to Ault Park and back.

The engine has been out twice this past week and will probably come out at least one more time.

We are determined to have it ready soon.

All my best,

Peter Boettcher
